Ahli Muda Pengembangan dan Strategi

May 2025 - Present

Core Objectives/Primary Task Goals: To achieve the product development targets that will enhance company revenue, and to maintain constructive communication with strategic partners, including both existing and potential ones. Additionally, to execute market research, strategic analysis, and support product development processes in alignment with corporate needs.

- **Product Development** Led end-to-end product development initiatives, encompassing strategic planning through market analysis, cross-functional coordination, prototype testing and iteration, and post-launch evaluation to ensure product quality, design, and value enhancement based on consumer feedback.
- **E-Commerce Operation** Managed comprehensive e-commerce operations, including strategic sales planning and budgeting, coordination with external partners (e.g., LKPP, payment gateways), implementation of security monitoring, execution of marketing campaigns, and performance evaluation to drive channel sales and inform strategic improvements.
- **Measuring Marketing Performance** Directed comprehensive customer satisfaction surveys to measure the performance of marketing, service, and product development across multiple product categories, including the design, execution, data analysis, reporting, and internal socialization of findings to drive organizational improvement.
